

GOOD SHEPHERD POLICY MANUAL

DEPARTMENT: Administration

NUMBER: ADM-05

TOPIC: Client Privacy and the Protection of Client Personal Information

PURPOSE: To outline the Good Shepherd's methods to ensure that client personal information is private and confidential.

POLICY: The Good Shepherd will comply with relevant privacy and confidentiality legislation regarding client personal information.

1.0 PROCEDURE

1.1 Accountability

The Good Shepherd is responsible for personal information under its control and has designated individual(s) to be accountable for the Good Shepherd's compliance with the following privacy principles

- 1.1.1 Accountability for The Good Shepherd's compliance with the privacy policy rests with the Chief Privacy Officer, although other individuals at Good Shepherd are responsible for the day-to-day collection and processing of personal information. All staff share responsibility for adhering to the Good Shepherd's privacy policies and procedures.
- 1.1.2 The name of the Chief Privacy Officer designated by the Good Shepherd to oversee compliance with its privacy policy is available upon request.
- 1.1.3 The Good Shepherd is responsible for personal information in its possession or custody, including information used by all employees, volunteers and other agents.
- 1.1.4 The Good Shepherd is responsible for ensuring that its employees, volunteers and other agents are informed of Good Shepherd's information practices and know their responsibilities relating to the collection use and disclosure of personal information.
- 1.1.5 Good Shepherd has written information practices in place that describe the organization's information management practices. These practices are available to the public.
- 1.1.6 The Good Shepherd has policies and practices in place to receive and respond to complaints and inquiries.

1.2 Identifying Purposes

The Good Shepherd will identify the purposes for the collection of personal information at or before the time the information is collected. The purposes for collection include:

- Make decisions about the types of services needed
 - Provide direct service
 - Communicate with other service providers
 - Monitor provision of services and evaluate client response to services provided
 - Meet legal and regulatory requirements
- 1.2.1 The identified purposes are specified at or before the time of collection to the individual from whom the personal information is collected. Depending upon how the information is collected, this can be done orally or in writing. Upon intake/admission, for example, a notice or brochure identifying the purposes may be posted or given to the individual.
 - 1.2.2 When personal information that has been collected is to be used or disclosed for a purpose not previously identified for which consent is required, the new purpose will be identified prior to use or disclosure. Unless the new purpose complies with the purposes identified, the consent of the individual will be obtained before the information will be used for another purpose.

- 1.2.3 Persons collecting personal information will be able to explain to individuals the purposes for which the information is being collected.

1.3 Consent

The knowledge and consent of the individual are required for the collection, use or disclosure of personal information, as noted below.

Note: *In certain circumstances personal information can be collected, used, or disclosed without the knowledge and consent of the individual. For example, legal, medical, or security reasons may make it impossible or impractical to seek consent. Acquiring consent may be impossible or inappropriate when the individual is a minor, cognitively impaired, seriously ill or psychotic and the Substitute Decision Maker is not available. The Good Shepherd will follow the rules provided in applicable privacy/confidentiality legislation.*

- 1.3.1 Consent may be express or implied.
- 1.3.2 When Good Shepherd receives personal information from the individual, the individual's Substitute Decision Maker, or another service provider or health information custodian for the purposes of providing service, The Good Shepherd will assume that the individual implies consent to collect, use and disclose the information as necessary for that purpose unless the individual has expressly withheld or withdrawn consent.
- 1.3.3 When a person's consent is required for collecting, using or disclosing personal information, it will be knowledgeable, relate to the information, and not be obtained through coercion or deception. A consent is knowledgeable if it is reasonable to believe, in the circumstances, that the individual knows the purposes of the collection, use or disclosure, and that the individual may provide or withhold consent.
- 1.3.4 A consent to the disclosure of personal information about an individual by the Good Shepherd to an external service provider will be express. If the Good Shepherd discloses personal information to another health information custodian for a purpose other than for providing service, consent will also be express.
- 1.3.5 Typically, Good Shepherd will seek consent for the use or disclosure of the information at the time of collection. In certain circumstances, consent with respect to use or disclosure may be sought after the information has been collected but before use, e.g., where the Good Shepherd has collected information from an external health care or service provider identifying a request for admission to our organization.
- 1.3.6 Consent can be given by the individual or an authorized Substitute Decision Maker if the individual is incapable. The Good Shepherd will follow the rules outlined in relevant legislation for obtaining consent on behalf of incapable individuals or for an individual who has died.
- 1.3.7 A consent may be withdrawn by the individual who gave it at any time by providing notice to Good Shepherd.

1.4 Limiting Collection

The collection of personal information shall be limited to that which is necessary for the purposes identified by The Good Shepherd. Information will be collected by fair and lawful means.

- 1.4.1 Good Shepherd will only collect personal information for lawful purposes permitted by legislation.
- 1.4.2 Good Shepherd will not collect personal information if other information can serve the purpose.
- 1.4.3 Good Shepherd will not collect personal information indiscriminately. Both the amount and the type of information collected will be limited to that which is necessary to fulfill the purposes identified.

- 1.4.4 Personal information will be collected by fair and lawful means.
- 1.4.5 Information may be collected indirectly without the consent of the individual in certain circumstances when the information is reasonably necessary for the provision of service to the individual. These circumstances include: where it is not reasonably possible to collect the information from the individual in a timely manner; where it is not reasonably possible to rely on the information from the individual as accurate; where another Act permits the collection.

1.5 Limiting Use, Disclosure, and Retention

Personal information shall not be used or disclosed for purposes other than those for which it was collected, except with the consent of the individual or as required by law. Personal information will be retained as long as necessary for the fulfillment of the purposes.

- 1.5.1 Good Shepherd will use and disclose personal information for lawful purposes permitted or required by Personal Health Information Protection Act, 2004(PHIPA) and by other Acts.
- 1.5.2 Good Shepherd will not use or disclose personal information if other information can serve the purpose.
- 1.5.3 Good Shepherd will not use or disclose personal information indiscriminately. Both the amount and the type of information used and disclosed will be limited to that which is necessary to fulfill the purposes identified.
- 1.5.4 Good Shepherd will use and disclose personal information for the purposes identified. If Good Shepherd uses or discloses personal information for a new purpose, it will document this purpose and obtain consent.
- 1.5.5 If personal information is used or disclosed without an individual's consent in a circumstance that requires consent, Good Shepherd will make a note of such use and/or disclosure, and inform the individual of the use or disclosure at the first reasonable opportunity. Good Shepherd will keep the note as part of the record about the individual or in a form that is linked to those records.
- 1.5.6 Good Shepherd may disclose personal information to a health care provider if the disclosure is reasonably necessary for the provision of health care and it is not reasonably possible to obtain consent in a timely manner.
- 1.5.7 Good Shepherd may disclose personal information where the disclosure is necessary for the purpose of eliminating or reducing a significant risk of serious bodily harm to an individual, a person or group of persons.

1.6 Accuracy

Good Shepherd will take reasonable steps to ensure personal information is as accurate, complete, and up-to-date as is necessary for the purposes for which it is to be used.

- 1.6.1 Information shall be sufficiently accurate, complete, and up-to-date to minimize the possibility that inappropriate information may be used to make a decision about an individual.
- 1.6.2 Personal information that is used on an ongoing basis, including information that is disclosed to third parties, will generally be accurate and up-to-date, unless limits to the requirement for accuracy are clearly set out.
- 1.6.3 Good Shepherd will not routinely update personal information, unless such a process is necessary to fulfil the purposes for which the information was collected.

1.7 Safeguards

Personal information will be protected by security safeguards appropriate to the sensitivity of the information.

- 1.7.1** Good Shepherd’s security safeguards will protect personal information against loss or theft, as well as unauthorized access, disclosure, copying, use, or modification. Good Shepherd will protect personal information regardless of the format in which it is held, e.g., verbal, paper or electronic.
- 1.7.2** Good Shepherd ensures that the records of personal information in its custody and control are retained, transferred and disposed of in a secure manner.
- 1.7.3** The methods of protection include:
- physical measures, for example, locked filing cabinets and restricted access to offices;
 - organizational measures, for example, acceptable use policies of Good Shepherd’s communication systems, limiting access to information on a “need-to-know” basis; and
 - technological measures, for example, the use of user identification and passwords to access Good Shepherd’s information systems.
- 1.7.4** Good Shepherd makes its employees, volunteers and other agents aware of the importance of maintaining the confidentiality of personal health information. As a condition of employment, all Good Shepherd employees must sign Good Shepherd’s confidentiality agreement and agree to adhere to the information practices.
- 1.7.5** Care is taken in the disposal or destruction of personal information, to prevent unauthorized parties from gaining access to the information.
- 1.7.6** Good Shepherd will notify an individual at the first reasonable opportunity if personal information is stolen, lost or accessed by unauthorized persons

1.8 Openness

Good Shepherd will make readily available to individuals specific information about its policies and practices relating to the management of personal information.

- 1.8.1** Good Shepherd sets out its information practices in writing and makes this information available to the public. This information is made available in a form that is generally understandable.
- 1.8.2** Good Shepherd will make information on its policies and practices available via the Good Shepherd website, posting the information in accessible locations at all programs, and providing the information on request.

1.9 Individual Access

Upon request, an individual will be informed of the existence, use and disclosure of his or her personal information and will be given access to that information. An individual will be able to challenge the accuracy and completeness of the information and have it amended as appropriate.

Note: *In certain situations, Good Shepherd may not be able to provide access to all the personal information that it holds about an individual. Exceptions to the access requirement will be limited and specific. The reasons for denying access will be provided to the individual upon request. Exceptions may include: access could reasonably be expected to result in a risk of serious harm to the treatment or recovery of the individual or a risk of serious bodily harm to an individual or group of individuals; information that is prohibitively costly to provide; information that contains references to other individuals; information that cannot be disclosed for legal reasons; and information that is subject to solicitor-client or litigation privilege.*

- 1.9.1** Good Shepherd will provide an individual with access to his or her record of personal information, except in limited circumstances. If the Good Shepherd refuses an access request, the individual is entitled to make a complaint to the Office of the Information and Privacy Commissioner of Ontario.

- 1.9.2** Good Shepherd will provide a request form to enable the individual to access his or her record within 30 days.
- 1.9.3** Good Shepherd may charge the individual seeking access a fee. The fee is \$25.00 for the first 20 pages, and then \$0.25 per page thereafter. Good Shepherd believes its fees to be reasonable.
- 1.9.4** An individual will be required to provide sufficient written information to permit Good Shepherd to provide an account of the existence, use, and disclosure of personal information. The information provided shall only be used for this purpose.
- 1.9.5** An individual may request Good Shepherd to correct his or her personal information if he or she believes that the record is inaccurate or incomplete. An individual must successfully demonstrate the inaccuracy or incompleteness of personal information and give Good Shepherd the necessary information to correct the record.
- 1.9.6** Good Shepherd will notify persons to whom the record was previously disclosed of the correction except where the correction would not affect the provision of services or other benefits.
- 1.9.7** Good Shepherd is not required to correct personal information that consists of a record that was not originally created by the Good Shepherd if Good Shepherd does not have sufficient knowledge, expertise or authority to correct the record or the record consists of a professional opinion made in good faith about the individual.
- 1.9.8** When the Good Shepherd is unable to make a correction, Good Shepherd will inform the individual of the refusal, provide reasons and inform him or her of the right to appeal the refusal or the right to attach a statement of disagreement to the individual's personal information.

1.10 Challenging Compliance

An individual will be able to address a challenge concerning compliance with the above principles to Good Shepherd's Chief Privacy Officer.

- 1.10.1** An individual who has grounds to believe that Good Shepherd has contravened privacy legislation may make a complaint in writing. Good Shepherd has complaint forms throughout each program. Good Shepherd will respond to all complaints or inquiries about its information practices relating to the handling of personal information. If an individual wants to complain to the Information and Privacy Commissioner, Good Shepherd will inform the individual how to lodge the complaint.
- 1.10.2** If a complaint is found to be justified through an internal or external complaint review process, Good Shepherd will take appropriate measures, including, if necessary, amending its information practices.

Good Shepherd Statement of Information Practices

We want to provide you with the best service possible. In order to provide that service, Good Shepherd needs to collect and use information about you, including your personal health information. We only collect the information we need in order to determine your service and support needs. The personal information we collect may include:

- Your name, date of birth
- Information about the reason you are seeking our services
- Information about your personal history, including your health history
- Information about the services you received from us

Good Shepherd may use your personal information to:

- Provide you with services
- Make referrals to other agencies on your behalf
- Comply with legal and regulatory requirements

You have the right to consent to how your personal information is collected, used and shared. However, there are specific situations where information can be shared without your consent as required by law, such as:

- When information is subpoenaed by a court of law
- When child abuse is suspected under the Child and Family Services Act
- When a client may be a significant danger to themselves or others

Your information is kept in a secure and well-protected place. Your information will only be viewed by those involved in providing services to you. All Good Shepherd staff have signed contracts that require them to keep your information confidential and safe.

If you wish to see, restrict the use or sharing of your information or request a correction, please discuss this request with us.

For more information about how we keep your information private or to raise a concern, contact:
